Danger Spillway Spillway  
May Release Large  
Quantity of Water From  
Dam at Any Time Without  
Warning Stay Clear Be  
Sure You Can Reach  
Shore Safely

**COMMENT:**

Font size emphasizes  
danger and avoidance  
advice. Subtext  
identifies source of  
hazard.

**RECOMMENDATION:**

Use of italics decreases  
"glance" readability.  
Use only in areas where  
viewer will be on foot or  
stopped in vehicle.

**SIGN:**

Danger Spillway  
Remain Outside of Log  
Boom

**COMMENT:**

Placement on the wall  
by the spillway targets  
people coming in from  
land who may have  
missed or avoided the  
log boom. A good  
second safety  
measure. Note  
additional sign at far  
end of spillway.

**RECOMMENDATION:**

None.
